

Baranowski Residence Wins 2007 Aurora Award

CHANCEY DESIGN PARTNERSHIP RECEIVES PRESTIGIOUS AWARD

Builders and designers throughout the Southeast attended the annual Aurora Awards gala in July in which the project team of Chancey Design Partnership and CJB Construction received honors. The awards extravaganza honored the best in new home construction and design.

A Best Kitchen award was presented to Chancey Design and CJB Construction for the Baranowski Residence located in Seagrove Beach, Florida. The 5,000 SF home includes many unique and custom elements including built-ins throughout, an art studio, a raised kitchen, a covered porch with outdoor fireplace, two-level master bedroom with fireplace, multiple balconies, widows walk, a pool, and a home gym in the carriage house. Across from the pool is a detached playhouse.

Michele Harrison, Aurora Awards Chair said, "It's a prestigious award that creates lifetime recognition for all winners." Under the direction of Harrison, the Aurora Awards honors the Southeast's most outstanding builders, planners, architects, developers, designers, interior merchandisers and other housing-related professionals within a 12-state southeast region stretching from Texas to Virginia.

Last year, over 470 projects were entered for a chance to join the southeast's most elite circle of Aurora Award winners.

Chancey Design thanks CJB Construction for nominating the project to the Aurora Awards committee.
