

Fountains at Boca Ciega, Alzheimer's Wing
Pasadena Beach, Florida

Project: Alzheimer's assisted living

Special Features: The amenities created for the Alzheimer's residence include common spaces for family visits, a privately fenced in garden with potting station, butterfly garden, and walking paths. Indoors are memory boxes on room doors to help residents remember which room is theirs, tactile stimulating art work, and secure entries and exits for their safety.

Project Details: CDP provided complete architecture and interior design services to the new additions.
