

Jenkins Residence
WaterColor, Santa Rosa Beach, Florida

Project: Custom single family residence

Size: 2,900 SF

Special Features: This three-story home is situated on a lake and features a first-floor shuttered sleeping porch and outdoor built-in kitchen. A bunkroom provides sleeping accommodations in addition to the already spacious four bedrooms. Additional features include a loft overlooking the Gulf horizon and a second floor wrap around deck.

Project Details: CDP provided complete architectural services.
